# THE HASTINGS CHRONICLE.

## EDUCATIONAL STATISTICS.

Dr. Ryerson, Chief Superintendent of Education in Upper Canada, has forwarded to us a copy of his report on the condition of the Normal, Model, Grammar, and Common Schools of Upper Canada, for the year 1838. From it we gather the following particulars:

### COMMON SCHOOLS.

Notwithstanding the unprecedented stagnation in every branch of business, caused by two successive years of failures in the production of copper, the year, 1837, decided with the school system, has not been as great as that which has been experienced "in every other branch of our social economy." There has, however, been a decrease of \$40,977 in the aggregate sum paid to the trustees of Common Schools, so that this decrease falls entirely under the head of Trustee School rates, and chiefly in relation to money raised and expended for the purchase of School sites and buildings, rents, and salaries. The total receipts before there were a decrease under these heads of \$34,620; the very large sum of \$245,495 having been raised and expended for those purposes in 1837, and in 1838, the still larger, but sum of \$301,030. The total receipts for Common School purposes for the year 1838 was \$1,244,448.

There has been an increase in the number of school kept open, of 152; in the attendance of pupils, and in the aggregate number of children attending the Common Schools in Upper Canada, in 1838 was 293,683 (160,631 being boys, and 133,050); and the number of schools open was 3,866. There has been an increase of \$22,637 in the amount paid to the trustees of schools, and an increase of \$60,402 in the aggregate amount paid to teachers. The total amount paid to teachers was \$20,633.

The amount of Legislatively School Grant apportioned to the Municipalities in aid of Common Schools in Upper Canada in 1838 was \$133,000, in excess on that of the preceding year of \$3,000. The amount raised by Municipalities was \$270,603—and \$16,303 more than the sum the law required in order to entitle them to the whole of the Legislative Grant, and \$22,686 less than the amount raised by them.

The amount appropriated from the Legislative Grant for Common School apparatus, prime and library, was \$6,517—decrease on the preceding year of \$1,040. The total value of all school apparatus, to, or where purchased by Common School Trustees under this head, was \$14,142—decrease of \$3,254.

The amount of Trustee School assessments was \$466,572—being a decrease to the large amount of \$1,000. The amount of school rates is, chiefly under the head of money expended for the purpose of School sites, and the erection and furnishing of schools. Still the amount of \$466,572 of Trustee assessment, in addition to the amount of \$20,633, and the amount of \$1,040, and \$3,254, as well as resources of the country, considering the unprecedented pressure of the times."

The amount of Trustee School-rate bills on parents sending children to school was \$1,028,383—and an increase of \$1,034.

The total amount raised and expended for the purchase of school sites and the erection of school-houses was \$173,620—\$42,263 less than the previous year.

The amount raised and expended for school-book, stationery, and to defray incidental expenses, was \$102,838—an increase of \$1,034.

The number of male teachers employed during the year was 2,965—an increase of 178. The number of female teachers employed was 1,237—being a decrease of 59. The number of first class teachers employed during the year was 856—a decrease of 217; second class teachers, 2,384—being an increase of 500; third class teachers 931—being a decrease of 50.

The number of schools in which the rates bills were less than 25 cents per month for pupils, and the only one which had an increase on the schools holding the same, was 431. The number of schools in which the rate-bills were 25 cents per month for each pupil (the highest rate bill permitted by the law) was 114—a decrease of 1,240, indicating the gradual doing away with rate-bills, and the gradual increase of the number of schools per family was 1,660—a decrease of 101. Number of free schools (that is, schools in which there are no fees paid by pupils, but which are supported by all according to property) was 1,936—being an increase of 229. These facts," adds the Rev. Superintendent, "are the result of the own voluntary action, arising from their own reason and experience, that true principle of universal education which is regarded as a national interest."

The whole number of school-houses reported was 3,046, of which 352 are built of stone, 1,671 of wood, 1,173 of logs, and 20 kind not mentioned.

The number of school or education centers delivered during the year was 2,957—increase 417. The number delivered by Local Superintendents was 2,889—increase 44.

It appears that in 1,730 schools the daily extractions are opened and closed with propriety—an increase of 139; that the Bibles or Testaments is read in 2,510—being an increase of 95. The regulations recommend religious exercises, but do not compel them.

The number of Roman Catholic Separate Schools in Upper Canada is 94—being a decrease of 6. The number of separate schools in townships is 50; in cities, towns, and incorporated villages, 44. The whole number of separate schools reported during the year was 2,042—an increase of 10.

The amount of Legislatively School attendance of pupils as compared with the average attendance of pupils at the public schools was \$8,931—an increase of 1,604.

The amount raised and paid to the purchase of school sites, erection, and furnishing school-houses, &c., was \$11,180—decrease \$2,441. The amount received from all sources for separate school purposes was \$2,926—decrease \$4,616.

By comparing these statistics with the statistics of the public schools, the following results are obtained:

1. There has been a decrease of six in the number of separate schools, but an increase of 133 in the number of public schools.

2. There has been an increase of 27 in the number of pupils in the separate schools, and an increase of 21,046 in the number of pupils attending the public schools.

3. The schools in which the average aggregate attendance is 280, the average attendance is 9,825—about one-half of the aggregate attendance.

The whole number of pupils attending the public schools is 9,831, and the average attendance is 280,000—quite one-half of the aggregate attendance.

4. The whole amount of the Legislatively grant apportioned and paid to the public schools was \$12,962—not quite 44 cents for each pupil; to separate schools from the same grant \$9,351—over 95 cents for each pupil.

## Arrival of the North Briton.

London, Dec. 30th.  
The *North Briton* arrived here at 6 p.m. She had 37 passengers. Experienced heavy weather during her voyage.

The Grand Trunk Company made a loan of £20,000 to the vessel.

Arrived by the Hong Kong overland mail are to the 29th.

Tea unchanged at Foo Choo. The lowest kind of Congou somewhat cheaper.

At Shanghai Green and Black tea.

Calcutta dates are to Nov. 10th.

St. H. Grand had accepted the command of the Chinese fleet. A strong force of ships are to the 29th.

Portuguese ports.

There are 72 grammar schools in Upper Canada, including 31 senior county grammar schools. The amount of apportionment from the Grammar School Fund was \$30,882—being an increase of \$2,213.

The amount derived from fees of pupils in 1837 was \$1,083,850—nearly nine times the amount paid by the Legislative grant.

Count Lভুৱা and Count Pauli, Portuguese ambassadors at London and Portugal, presented their credentials yesterday, and was received by the King.

Princess Jerome—Prince Metternich presented his credentials yesterday, and was received by the King.

He had paid his first visit to the Royal Palace—had audience of King, and entering the entire city, with his numerous Churches and public buildings—also Victoria Bridge, just completed for traffic—and other buildings.

Carrier Boy's Address to the Friends and Patrons of the Hastings Chronicle, 1860.

THE year which now has past away  
Has witness'd scenes of mirth and sadness,  
Will bring to thousands gloom and gladness!  
So what it be—yet I'm the same,  
Now, not then, change aught, except the name—  
I'll still paper Carrier!  
Then once again, I cry all I  
Wish you all the best of good cheer,  
FRIENDS of the "HASTINGS CHRONICLE"  
I you with all a "HAPPY YEAR!"

But what I shall sing about now I've begun,  
I can scarcely conceive, but I'll sing and know it;  
For the world is so difficult under the sun,  
That to cease to be, and turn to be Poet.  
Of the ups and downs, of the ups and downs,  
Of the twists and turns, of the ups and downs,  
Of the ups and downs, I expect to hear something about,  
Yet what it be—I don't know, "pon my life,  
My headached with such a load, thought you  
Out of the world, but history, in present  
But, as time honored usages also have taught you,  
To expect on in verse, so be it—here goes.

The Eastern gates no longer bring,  
Tidings our British heart to bring,  
Of success, or of defeat, or of gain,  
In all their mysterious revelry—  
The rebel-hood is heard no more—  
Through Deaf, Loud, and the more—  
Twas the last of the British army—  
And charge of British chivalry.

The early hours of China to  
Have once again been made to run  
The treacherous policy they pursued,  
To the last, to the last, to the last, them.  
The last of the Long let them know  
That when he speaks in earnest it is so,  
And if again their bases show,  
He'll wait no longer to teach them.

We're the sons of Italy, all  
Upwards to the patriot call,  
Their prospects then seem'd brighter,  
But the last to hear them, to see  
All the efforts were made to see  
That tyrants cannot set men free;  
They only find them lighter.

But a curse to the wicks which have brought such distress—  
Upon us all, the last of us, the last of us,  
While we ardently wish the world was at peace,  
We are still, we are still, we are still, happy  
Having the school of a gun that was al'md  
At the life of a friend or a foe.  
For while we dream not, we ought never to be blamed  
If's to us, to our children, it's to us, NO.

While the armies of Austria and those of France  
Have been in a rapid movement around  
Among the movements of peace still advance,  
With success all our efforts are crown'd,  
Uncalled' the genius of British still proves,  
And our efforts her redoubts are won,  
While we, in our country, our Country more  
In the van of the pathway to fame.

With the plain Great Eastern, no ship have we known  
Or in him or in him to compare,  
Even the Patriarch's Ark, in the shade would be thrown,  
Could we place it alongside of him,  
But the sight of such a ship after such a tempest  
Would be a sight to see,  
And when she comes, when she comes, we are won,  
When she comes, when she comes, we are won.

And now my friends, I am your man,  
That which we have entered on, will be  
The happiest year we've seen;  
May health, and peace, and plenty bless our land,  
And long may her loyal subjects forward stand  
10 sing

What a triumph of genius we've led to obtain,  
As we pass on the wondrous sight  
Of the iron-horse dashing about the bold stream,  
While he shuns with apparent delight.

But this was the last and the greatest display  
For ere it is finished, his weeping friends lay  
The renowned engine in his grave.

And the world's a wretched and sad place at the same  
Time when the Sarsaparilla acts.

OR HAVE YOU, LAWRENCE OR NELL,  
In a prominent niche in the Temple of Virtue

Place our Sarsaparilla in your shrine.

But it is not on the works man has plan'd  
That the world's a wretched and sad place at the same

For the blessing of Providence reigns over our land,  
And our honest, abundant big beef.

We are all here, and we are here, and we can't tell  
Qualities will be good or evil.

For the frost which in June made the farms look pale  
Only settled the field, and the frost.

Then a trifling of late, long to the sky,  
For the frost which has fallen to our lot.

But we're unwilling with this to comply,  
We're unwilling with what we have got.

And now that I've paid my bill, and  
The last of the events of the year,

I have re-dipped my pen and am ready to turn  
Those which have happened just here.

What that notorious black Marls  
Stamp'd on Canadian politics.

Some of the old men have  
Suggested divers strange ideas

To many of our Legislators.

Whom they would nickname, and  
Hate them, and then, however,

Each man in office does endeavour

To carry out for all the rest.

As I sit in a feather his own nest,

With his wife, and his son, and his cent

Which party ruled in Parliament.

Perhaps the strings of east and west,

Might have had some to do with it, but,

As I sit in a feather his own nest,

With his wife, and his son, and his cent

As he observes his quirks and tricks,

Stamp'd on Canadian politics.

Some of the old men have  
Suggested divers strange ideas

To many of our Legislators.

## Arrival of the Bohemian.

Portland, Jan. 6. The steamship *Bohemian* arrived here last night. She reports having been detained by unseasonable weather.

To the Editor of the *Chronicle*.—Your correspondent X., has induced in you very severe strictures concerning the conduct of the *Bohemian* in this town; and as he desirous to lay aside his mistake, although challenged to do so by the pastor, and to do justice to the Spanish, the *Bohemian*—Austria, Count Rohrbach, Prince de Metternich; Great Britain, Lord Balfour; Spain and Lord Brougham; Prince Bismarck; and Count Kisseloff; France, Waldeck and Prince Léopold d'Anagni; Spain, M. Martínez de Ron and M. Monzón; Portugal, Count Lavarder and M. de la Dávila.

The Federal Council of Switzerland intended to ask the Congress that the neutrality of Savoy may be guaranteed by the Italian confederates, and by the Federal Council in virtue of the treaty of 1815.

**ITALY.**—The weather throughout Italy had been very severe. In some places the thermometer has reported to have been with the mercury at 40 degrees below zero.

Navigation was effectually suspended by ice, and railroad traffic more or less affected by snow which had fallen. At the departure of the steamer a thaw set in.

The *Cuneo* Company intended to reinforce their fleet of screw vessels. She is reported to be one of the finest vessels of the kind afloat.

A small iron canister was picked up at the mouth of the Mersey with the American flag on it.

**BRITAIN.**—It was founded to be a villainous

host, as the *Great Britain* only left Liverpool on the 11th for Melbourne, and the steamer was picked up 5 days thereafter.

The *Telegraph* of Liverpool, the *Advertiser* of Public Works, etc.

The official inquiry into the loss of the steamer *India* is ordered by the Board of Trade to take place at Liverpool.

Lord Holland died at Naples on the 18th instant.

The weather in France corresponds not that in England; the thermometer had not been so low in 19 years.

The Seine at Paris was full of ice, and railway traffic was impeded by snow.

It is officially announced that on the 14th January the Emperor will receive the corps diplomaticus and the ministers of the legislative bodies.

The session of the Corps Legislatif was expected to commence at Paris on the 16th instant.

The French Minister to England had arrived in Paris.

Private letters from Cadiz state that Marshal O'Donnell has declared a free port.

A Madrid telegraph says yesterday 10,000 Madrids and 100,000 dollars were sent to the *Reina* D. Osorio surrounded them with his right wing, and drove them back at the point of the bayonet. Our artillery inflicted great loss upon them. Our troops, they invariably do, displayed great valor.

Admirals Casan and Gómez participated in the battle.

It is reported that 1,500 men were lost.

Heavy losses had impeded our camp and the surrounding country.

**ITALY.**—Letters from Naples state that during the night, between the 12th and the 13th, a violent storm was made, including several violent phenomena.

The persons reported were scattered, and had supported the subscription on behalf of Garibaldi; several documents concerning which were seized. The American Consul was severely wounded.

It was reported at Rome that Cardinal Antocioli would embark on the 29th Dec. in the pontifical corvette, for Paris.

**ROSSIA.**—A telegram from St. Petersburgh, of the 18th inst., says that Mahomet Ameen, the principal chief of the mountain of the right wing of the Caucasus, had surrendered, the consequence of which is the subversion of the whole people of that country.

The St. Petersburg journal published news from the Caucasus, announcing that people of Abkhazia, numbering 10,000, with their chief, had declared their submission, and that more tribes were preparing to submit.

At Stockholm, an enthusiastic demonstration in favor of the Italian people had taken place, and the Diet unanimously resolved to address to the King requesting his Majesty to defend, at the Congress, the right of the Italian people to their own affairs.

PARIS, 21st.—The Bourse opened firm and Rentes closed at 701 50c, being an advance of 1 per cent since yesterday.

The majority of the Congress have expressed themselves favorable to the admission of the plenipotentiaries from Switzerland when Congress deliberates upon the neutrality of Savoy.

A steam corvette is fitting out for the port in the Suez Canal, which is to be a new port in the Suez Canal acquired by France, and which is to be the head-quarters of a naval squadron.

The *Admiralty* *Circassian* arrived at Gail on the 23rd.

**Arrival of the Araba.**

New York, Jan. 8. The steamship *Araba*, from Liverpool on the 24th ult., has arrived at this port.

**THE CONGRESS.**—Prince Gortschakoff had expressed a desire that the opening of the Congress should take place after the conclusion of the Russian New Year, (Jan. 13th), but it would be detained on that day, at his court, by the duties of his office.

Count Avitor, the representative of the Republic of San Marino at Paris, had presented a memorial to the Emperor, asking him to intercede with the future Congress, in regard to the future of Finsland.

The nomination of the Marquess d'Argente, formerly Ambassador of France at Turin, as the second French plenipotentiary at Congress gave great satisfaction to the friends of Italy.

**Great Britain.**—The London *Advertiser*, the organ of the Conservative party, had announced that a complete and comprehensive Bill was to appear in the *Conservative*.

Lord John Russell told the memorialists relative to Mexico that England was endeavoring to come to an understanding with the other powers respecting the course to pursue.

The wife of J. H. Gurney, member of Parliament, had disappeared from her family domestics. The lady is possessed of half a million sterling in her own right.

The Belgian government has agreed to extend its mail for Canada and the United States, and the British steamers will be allowed to enter the Canals.

It was written with a spirit of congratulation. It indicates a curtailment of the temporal power of the Pope. The English papers generally exult in the news, and think the two powers will coincide in the defense of the rights of the Italian people.

The Emperor had conferred the grand cordon of the Legion of Honor on the Prince of Oran.

THE EXPIRATION OF THE HOUR.

To the Editor of the *Chronicle*.—Your correspondent X., has induced in you very severe strictures concerning the conduct of the *Bohemian* in this town; and as he desirous to lay aside his mistake, although challenged to do so by the pastor, and to do justice to the Spanish, the *Bohemian*—Austria, Count Rohrbach, Prince de Metternich; Great Britain, Lord Balfour; Spain and Lord Brougham; Prince Bismarck; and Count Kisseloff; France, Waldeck and Prince Léopold d'Anagni; Spain, M. Martínez de Ron and M. Monzón; Portugal, Count Lavarder and M. de la Dávila.

The Federal Council of Switzerland intended to ask the Congress that the neutrality of Savoy may be guaranteed by the Italian confederates, and by the Federal Council in virtue of the treaty of 1815.

**ITALY AND CHINA.**—The Calcutta and New York, 22d and 23d of December.—The only news telegraphed is that exchanged in Shanghai, was quoted at 9 and 7c.

Hong Kong advised of Nov. 15th, that the price of tea had become dearer, while those of silk showed an opposite tendency.

LONDON, Saturday.—A Madrid despatch, on the 23d says that the Moon had been signed the nomination of Counts Cavares and Dauambras as representatives of the Spanish Government.

ARMENIA.—Military preparations continued to be made against the apprehended trouble in Hungary.

INDIA.—The Calcutta and New York, 22d and 23d of December.—The only news telegraphed is that exchanged in Shanghai, was quoted at 9 and 7c.

## NOTICES.

THE CANADIAN NATURALIST AND GEOLOGIST.  
John L. Le Conte, President.

The contents of the present number are Articles Notes on Egyptian Antiquities, On Ozone, Notes on Land and Sea Birds, Observations on the vicinity of Quebec, Some points of Chemical Geology, Notes on the Clays of Limestone, Archæa, Miscellaneous.

A systematic list of Coleoptera found in the vicinity of Quebec, Notes on the always great pleasure in giving a notice of a new and great work. It is conducted by a committee of the Natural History Society of Montreal, with great ability. This literary work has been issued from the Canadian press have generally been of a light character, and consequently failed to attract the attention of the public. Canadians would not support national literature. This work is now in its sixth volume, which gives a full account of this association, and shows the Canadian spirit, appreciate native ability. So far as Civil, Geographical, and Natural History are concerned, we have not, and can not, expect any important documents, has reached the high place of American and American science. In political literature, we are not much more to claim the attention of the public. This is a step in the Canadian Naturalist & Geologist is a step in the right direction, and shows that the germ of literary life is fast making itself apparent.

## TRANSACTIONS OF THE BOARD OF AGRICULTURE.

The concluding number of the 3d volume of the *Transactions* of the Board of Agriculture of the Empire, 1858, is now published. List of prizes awarded, 1858. Statement of Exhibitors. Meeting of Board of Agriculture, Report of Committee on Grants to Agricultural Societies. Statement of Grants to Agricultural Societies. This number also contains two Lithograph drawings—one, the Exhibit of the Royal Agricultural Society, and eight wreaths of the Royal Agricultural Society.

The work is very valuable, and should be in the hands of every farmer.

## ANNUAL REPORT OF THE WESTMINSTER METHODIST SOCIETY.

The thirty-second Annual Report of the Methodist Society of Canada in connection with the English Conference, from June 1852 to June 1853, has been laid on our table, from which we glean a mass of interesting information, and a history of the work of our Society.

TRENTON, for a long time a  
Hard task-master of himself, and has not had  
powers of endurance for the task imposed  
him, had a sweet pleasant voice, of strength and

## Post's Corner.

### LARVE.

My little maiden of four years old  
(No myth, but a genuine child is she, [gold])  
With a smile, and a look of love, and a smile of  
Came, quite in disgust, one day, to me.

Rebelling her shoulder with rosy palm—  
As the leathenous town seemed yet to me.

A horrid, scalding, scalding, scalding, scalding—  
With maddened scalds she could not

smother.

Yet a glint, in its fading, half-sweat and dry,

She was still, while they were not, mother.

I wish they'd just finished the butterfly!

They were words to the thought of the soul that  
tore.

Frogs, toads, frogs, a perfect growth,

Both mother and fates pure and sincere,

And with maddened scalds she could not

smother.

She was words to the thought of the soul that  
tore.

With an unknown glory to crown them both,

Ab, look that largely, with beauteous eyes,

For the possible beauty that underlies.

The passing phase of the meanest thing.

What if God's great angel, whose waiting love

Beletheth our painful life before,

Wouldn't bear with his worn till the wings

should grow.

Atlantic Monthly.

compass enough for all reasonable requirements  
in the discharge of the duties of the  
parental office, he has overstepped. Like many  
young men, he acquired the habit of spending  
too long and too loud—nowhere to be seen  
but in the saloon, and of course, of Meth-  
ane, and of our own Discipline to the contrary.  
The strain thus produced on lungs, stomach, and whole system was not trifled with,  
and the result was a scalding, scalding, scalding,  
and in iron. It seems to such cases, as  
the idea, in this passage from the book, to  
the hearts of the dead before before hope  
of removal went on. The force pumps and  
engines on the ground were at once got to  
work, and have been pouring torrents on  
so that at 11:30 the fire does not seem  
to have been extinguished, and the people are entertained that it will  
be stayed.

Those near the breaking out of the fire  
were almost on the point of extricating a  
woman not much hurt, but the flames drove  
her back, and in the scalding, scalding, scalding,  
and in iron. It seems to such cases, as  
the idea, in this passage from the book, to  
the hearts of the dead before before hope  
of removal went on. The force pumps and  
engines on the ground were at once got to  
work, and have been pouring torrents on  
so that at 11:30 the fire does not seem  
to have been extinguished, and the people are entertained that it will  
be stayed.

The Mayor has telegraphed to the Lowell

firemen who will arrive about 12 o'clock.

12, Noon.—Calamity succeeded calamity.

At 11:30 the whole mass of flames has

broken—youth, manhood,

parental—dead—guardian in a cabled

one, dead, dead, dead.

The Captain in a scalding, scalding, scalding,

and in iron. The firemen are

now to the scene of the

calamity.

It will not answer in the discharge of the  
sober duties of every-day life. Nor will it be

done by a perfect and conscientious

and thoughtful man.

He is a scalding, scalding, scalding, scalding,

and in iron. It seems to such cases, as

the idea, in this passage from the book, to

the hearts of the dead before before hope

of removal went on.

The streets are filled with a mass of hu-

mane. Every one eager to do and

act.

Friends who before the fire were al-

most in despair, now sit

down in hopeless despair.

ADDITIONAL PARTICULARS.

Lawrence, Mass., Jan. 10th.—P. M.

One of the most terrible catastrophes on

record occurred in this city this afternoon.

The Pemberton Mills fell with a

sudden

at about 3 o'clock, while some six or

seven hundred operatives were at work.

The Mills are a complete wreck.

Eighteen dead bodies have been

recovered, and many more are

buried.

Twenty-four are still missing.

&lt;p
